Dear Walter Wright and Ralph Hocking:

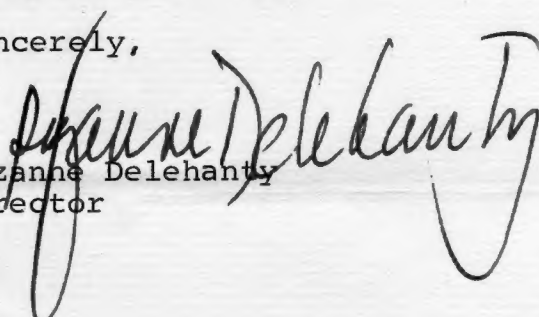

The Institute is organizing a Video Art exhibition which will travel to the Contemporary Arts Center in Cincinnati and the Museum of Contemporary Art in Chicago. The exhibition will open in Philadelphia in late January 1975.

I am very interested for research purposes to know more about your project. I would also appreciate knowing if it is possible to borrow the Nam June Paik-Abe synthesizer? If so, what are the conditions by which it is available and the fee?

A lot of questions! Would like to see the Center and wonder if you both will be there in July? If so do you mind having visitors?

Many, many thanks.

Sincerely,

  
Suzanne Delehanty  
Director
